----------------	-------------------------------------	--------------------------------------	------------

1. General Information

Type of Change	Key component upgraded
Description of Change	MCP upgraded
Reason of Change	Due to market status variation and process technology migration, ESMT will stop the production of MCP 4G2G LPDDR2 series products with product number of FM6BD4G2GXA . Therefore, the new version (product number: FM6BD4G2GCA), which is compatible with the previous one, will be used alternatively.

3. Impacts of the Change

Risk Assessment	In the near future, EC25 & EC21 modules with new and old version MCPs are supplied simultaneously. Customers may receive either version when ordering.
Suggested Implementation Plan	Through rigorous and complete testing, Quectel confirms that EC25 & EC21 series modules with both new and old version MCPs fully meet the qualification and performance requirements. Therefore, EC25 & EC21 modules with both new and old version MCPs are qualified and will not cause difference on module functionality or performance. Customers can feel free to use both of them.
