LANTRONIX

PRODUCT CHANGE NOTICE

Dear Valued Lantronix Customer,

The purpose of this communication is to inform you of the availability of new software release for products based on the CoBos operating system.

Change Type
Software

Products Affected

XPICO

Part Number	Description	Old Revision	New Revision
XPC100100B-01	xPico Device Server Module, Extended Temperature, w/ Encryption, RoHS, Bulk	E13	F13
XPC100100S-01	XPICO DEVICE SERVER MODULE, EXTENDED TEMPERATURE, W/ENCRYPTION, ROHS, SAMPLE	E12	F12
XPC100100K-02	xPico Device Server Module, Development Kit, w/ Module, RoHS	C11	D11

Description and Extent of Change
New application firmware is available for the above products and their SKUs that addresses the vulnerability for customers using the basic password configuration instead of the enhanced password configuration.

This update enhances the security and handling of passwords. If you are using the basic password, this is a critical security update. Even after applying this updated firmware, we highly recommend that you only use the enhanced password in your systems. Please refer to the user documentation on further details regarding the configuration of the enhanced password.

Effect of Change on Fit, Form, Function, Quality, or Reliability
For customers using standard Lantronix firmware, it is highly recommended that you upgrade your firmware to the new versions outlined below.

Product Variant	Part Number	Software Version
XPICO	XPC100100B-01 XPC100100S-01 XPC100100K-02	Firmware: v6.11.0.9

The firmware is available for download from the Lantronix website (http://www.lantronix.com) from January 30, 2018.

Customers creating custom firmware via the CoBos CPK will need to rebuild their firmware with the updated CPK release. Updated CPK (version 611010) is available now, please contact your Lantronix Field Application Engineer for access.

Effective Date of Change
Affected products will begin shipping with the new software from the factory by July 1, 2018.

If you have any questions, please contact your sales representative or Lantronix Technical Support at (800) 422-7044 or (949) 453-7198.
