

CEM22 electronic housing is realized for connections up to 16 poles.

CEM22-V housing, with 2 horizontal boards inside, can be used with 4 pcs **ML254-5-S/D-LCS** series, or 8 pcs **ML252-5-S/D-LC** series

They allow the possibility to reduce the number of connections down to 4, 8 or 12 poles keeping same protection level of inner components.

The wide inner space allows the use and mounting of a high number of electronic components.

Special colours, modifications on upper cover and imprints are available on request.
