### SAFETY PRECAUTIONS

- ⚠ WARNING** • Violation of warnings may lead to serious injury or death.
- ⚠ CAUTION** • Violation of precautions may lead to minor injury or product damage.

#### ⚠ WARNING

- Do not install near inflammable objects or potential sources of fire, such as paper or cloth.
- Power must be turned off during installation, replacement, and cleaning. Only hold the product body to work (possible cause of electric execution).
- Do not use in places with risk of water inflow or in a high temperature environment.
- Do not arbitrarily dismantle or modify the product in case of breakdown.
- Make sure the product does not contact the hand or any parts of skin while the light is on or immediately after turning it off since it can be hot.
- Do not touch the product with wet hands.
- Do not apply the product to the voltage other than verified voltage of AC220-240V.
- Do not arbitrarily dismantle, repair, or modify the product.

#### ⚠ CAUTION

- Make sure to install or replace lamps compatible with the rated voltage.
- Do not use the product with lighting equipment with a dimming function.
- Please pay attention to potential damage while handling the product and keep away from moisture.
- Please remove contaminants before use since surface contamination could lower the brightness.
- Do not install the product to fixtures that are completely sealed or almost completely sealed.
- Make sure the power pin is completely inserted into the socket.
- Never connect to damaged equipment.
- Products that are confirmed to be damaged or malfunctioning from distribution process will be replaced with new products.
- This device is not intended for use with emergency exit.
- For lamps with a weight significantly higher than that of the lamps for which they are a replacement, attention should be drawn to the fact that the increased weight may reduce the mechanical stability of certain luminaires.
- Special conditions or restrictions which shall be observed for lamp operation, for example, operation in dimming circuits.
- Where lamps are not suitable for dimming, the following symbol may be used:
